The smart way to connect

Introducing Telkom ADSL!

Hi!

Thank you for showing interest in Telkom ADSL, powered by T Connect. ADSL is a great product if you want fast internet access for your home or business.

What is ADSL?

Asymmetric digital subscriber line (ADSL) is a data communications technology that enables faster data transmission over copper telephone lines than a conventional voiceband modem can provide.

Telkom ADSL Product Benefits:

- Always Available – With ADSL you will only have to log on once to be online. There will be no more long delays to establish a connection and no busy signals
- Simultaneous Voice and Data Connections over the same line – ADSL users can make voice calls and access the Internet simultaneously or even send a fax while browsing
- Speed – Telkom's ADSL access service will provide data transmission to a PC at significantly higher speeds
- Flat rate monthly billing – You don't not get charged for Internet usage

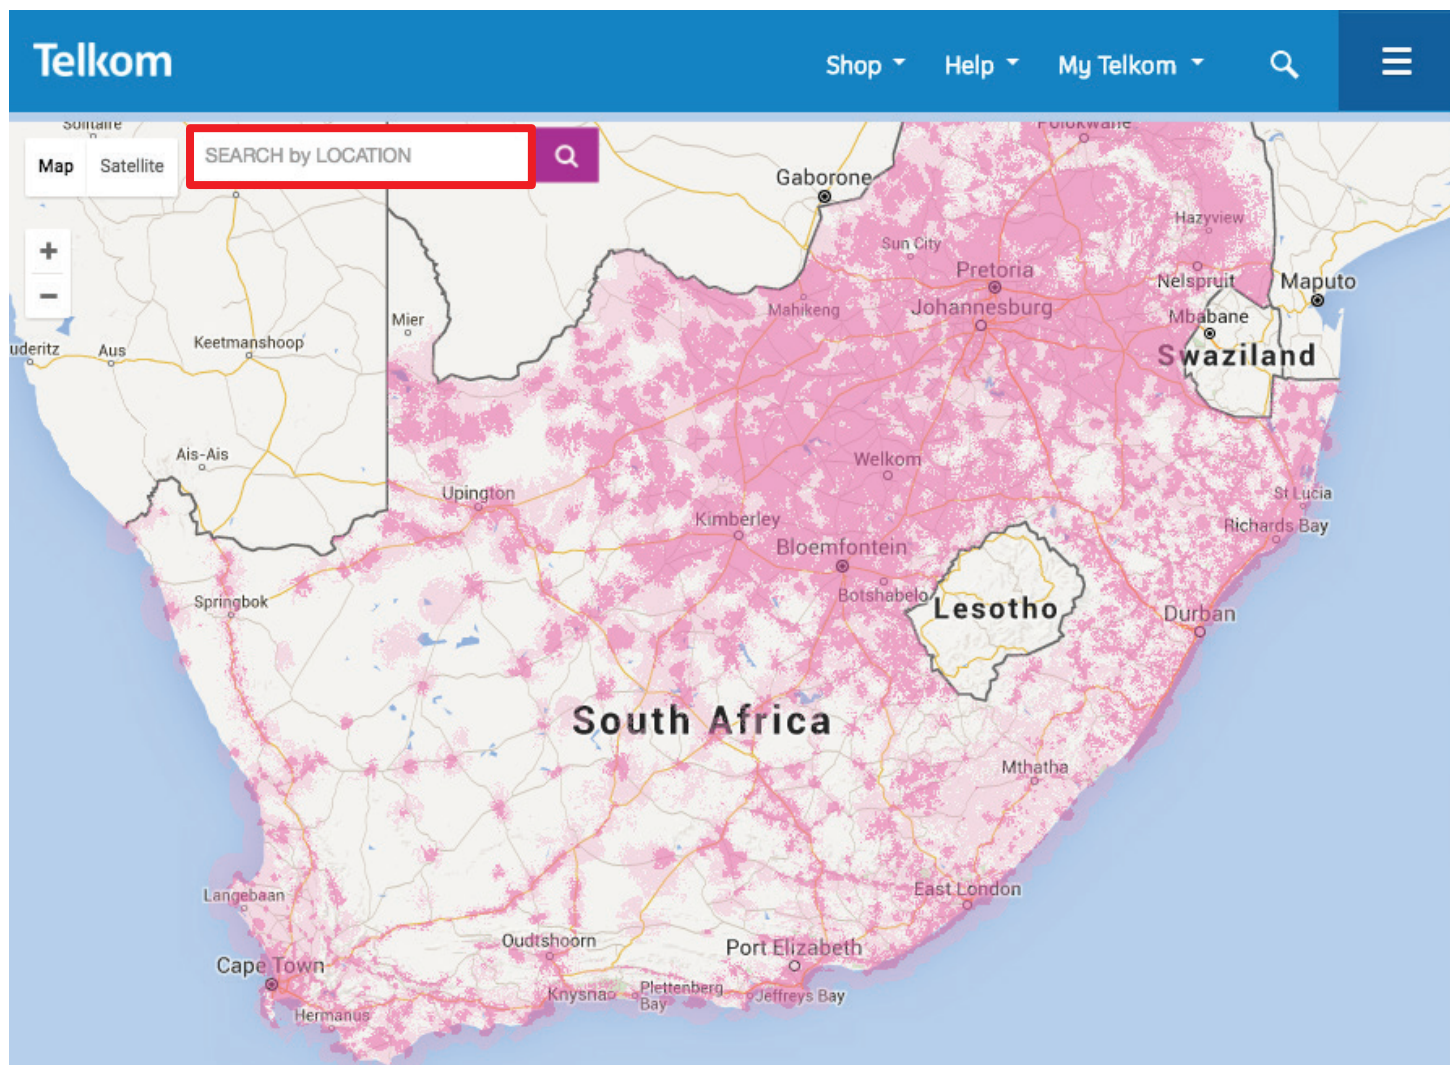

Comparing LTE, ADSL and Fibre

	ADSL	LTE	Fibre
Device required?	Yes	Yes	Yes
Mobile solution?	No	Yes	No
Voice and ADSL live required?	Yes	No	Yes
Sim card required?	No	Yes	No
Speed?	Fast	Faster	Fastest
